

Seppi the marmot in the most active valley in the world

Griß enk! I'm Seppi – probably the most active marmot in the most active valley in the world! I come from the Zillertal, more precisely from the Stilluptal. As "a real Zillachtoler Mankal" I'm always looking for new adventures.

On a sunny morning, my friends and I sat comfortably in the shade behind my favorite rock – I don't like it that hot. To be prepared for every adventure, we happily feasted our stomachs on fresh alpine herbs and grass and enjoyed the view. Waterfalls, snow-capped peaks, and fragrant, colorful alpine meadows as far as my binoculars could reach.

„Pfiffff, Pfifff, Pfifff!“ I heard behind me. Immediately we were all on alert. Because with our marmot whistle, we warn our family and friends of dangers. But this time we were wrong: I discovered the Moigg family, the owners of the alpine pasture Lacknerbrunn and the lush green meadows with my favorite rock.

They often do a bike tour to their pasture. Most of the time we stay hidden to not disturb them. But that day, the spirit of adventure seized me, and I approached them. They were delighted with me. Love at first sight: fluffy, lovable, funny & sporty. That's how I became the mascot at the Neuhaus Zillertal Resort.

Since then, hibernation has been out of the question, because the marmot says hello every day: 365 days a year, I am your companion, your outdoor guide, your friend & protector.

With me you will discover the most secret places in the upper Zillertal, get to know the true natural treasures of the high mountains of the Zillertal Alps Nature Park & collect unforgettable mountain moments for life.

Of course, I don't have to do the many tasks as a mascot in the Neuhaus Zillertal Resort alone, because what would life be without friends: Rosa, the chamois and Fips, the snow hare are real mountain enthusiasts, as we say. In winter they take you to snow-covered ski slopes, winter playgrounds and fast-paced toboggan runs. It's rarely just a single ride.

In summer they know exactly where the most adventurous discovery paths with the most beautiful views and the most delicious snacks are. The two are real climbing professionals and dare to climb the steepest rocks as if it were the easiest thing in the world. But beware, the two are also true mountain professionals and can assess the dangers of the high mountains perfectly. They know exactly where you can ski well without getting hit by an avalanche. So, Rosa & Fips always listen carefully!

Phew, what a busy day in the most active valley in the world. Fortunately, Flora the cow and Grunz the pig are already waiting with a well-deserved refreshment. Flora & Grunz diligently take care of our agriculture near Neuhaus and our alpine farms on Penken and in Stilluptal.

Whether milking cows, mowing meadows, or making butter, cheese and yoghurt, they know how to do it right. Every year in autumn, the two make sure that our dairy cows and calves come home from the alpine pasture sheltered to the Neuhaus Zillertal Resort.

And you know what? Flora does not love wearing her wreath of flowers for nothing, because she passionately takes care of everything that blooms colorfully, smells & tastes deliciously sweet. She also knows every single flower in the Alps. She harvests our apples, pears & sweet berries in the romantic garden with the help of Grunz and distils the best fruit schnapps for our older guests. You can also marvel at Flora's snack garden at the chapel in the romantic garden.

So what are you waiting for? Come with us into nature! The adventure is already waiting!
